Training

- **Training services**
 - training of builder production personnel
 - training of subcontractors
 - training of sales staff

Inspection Services

- Pre-Drywall Inspections
- Insulation Inspections
- Blower Door/Duct Blaster testing
- Code Compliance documentation

Data Base

- **Electronic capability**
 - code documentation and forms
 - Utility rebates
 - Historical testing data – show trends
-

Building Science Support

- **Electronic capability**
 - code documentation and forms
 - Utility rebates
 - Historical testing data – show trends
-

Building Science Support

- **Provide Root Cause Analysis**
 - Home performance issues
 - Moisture Issues
 - Comfort Issues
 - Energy Cost analysis

Sales & Marketing Tools

Homeowner Manual

Provides an overview of the program and operational/maintenance suggestions to help keep the home performing properly.

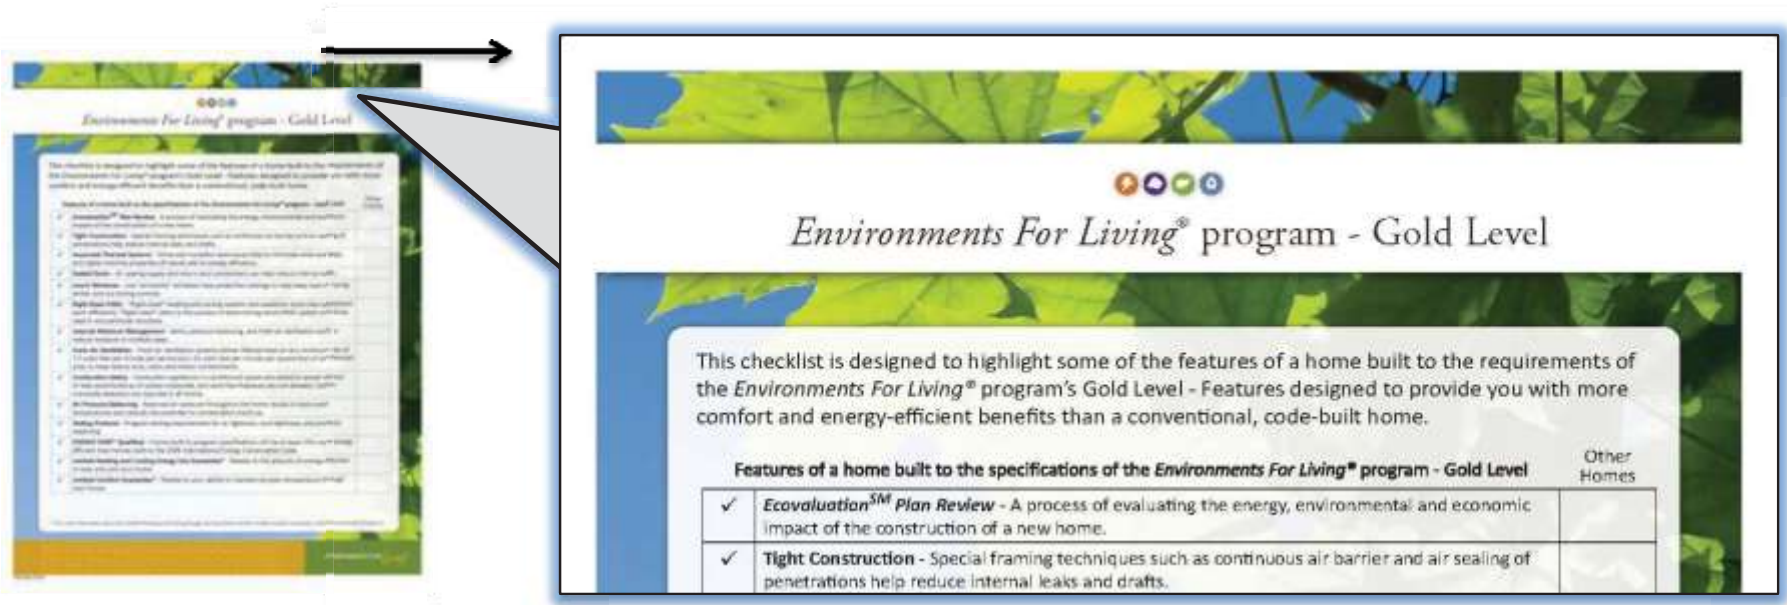

Used for *Environments For Living* and *Environments For Living Certified Green* program homes.

An electronic copy of this file is available for download through the Project Manager Portal.

Program Level Checklists

The checklist provides a list of features found in a home built to program requirements. This one-page checklist is available for the *Environments For Living* Gold and Platinum levels as well as the *Environments For Living Certified Green* program.

Available for *Environments For Living* and *Environments For Living Certified Green* program homes.

Checklists may be ordered at www.MHSCatalog.com or a PDF can be provided so the builder may print and distribute.

REGISTER YOUR HOME TODAY

To activate this Limited Guarantee you *must* register your Home at environmentsforliving.com/register or by calling (866) 912-7233 within 30 days of the date you close on the purchase of your Home. By registering your home, you agree to the terms and conditions set forth in this limited Guarantee including but not limited to the binding arbitration provision. For more information about the *Environments For Living*[®] program, visit environmentsforliving.com.

¹ This Limited Guarantee is subject to the terms and conditions set forth on this page and the second page of this guarantee. ² This cost is strictly an estimate and will vary with your actual cost of energy. This heating and cooling cost is based only on the utility rates above and does not include tariffs, surcharges or other fees charged by your utility providers. ³ The HERS Index score is a scoring system established by Residential Energy Services Network (RESNET), a third party. In which a score of 100 is what a standard new home built to code would score, while a score of 0 is a new home that has net-zero energy use. The HERS Index score shown is calculated for the home plan as designed, not as built, using software approved by RESNET. This software assumes certain conditions and requires inputs specified by RESNET. The actual energy efficiency of your home as built, and your energy use, will vary depending on, among other things, occupancy, location, orientation, and specific as-built features and characteristics, and may be higher or lower than the HERS Index score shown above. Masco Home Services, Inc. does not guarantee the actual HERS Index score for the home as built. The HERS Index is a registered trademark of RESNET.

Home Energy Rating Certificate

A Home Energy Rating certificate is provided in addition to the limited guarantee.

Sample Home Energy Rating certificate provided electronically upon request.

Model Home Signage

These signs can be placed throughout a home built to the program requirements to call out the features of the program.

Available for *Environments For Living* and *Environments For Living Certified Green* program homes.

Model home signage may be ordered at www.MHSCatalog.com or PDF files can be provided so the builder may handle sign production.
