2020 Partnership Opportunity Packages
Be part of the community specifically designed to help high performance builders thrive.

EEBA is...

● THE gathering place for the high-performance and sustainable home-building community
  ○ Independent clearinghouse for cutting-edge building science
  ○ Your source for best practices for marketing and selling high performance homes

● A community of dedicated professionals, committed to helping one another build high-performance, sustainable homes through...
  ○ Peer-to-peer engagement
  ○ Earning continuing education credits
  ○ Sharing of best practices
  ○ Increasing demand for high-performance homes

● Nationally recognized, nonprofit, building-science training organization

● The home-building industry’s trusted resource for the best high-performance building knowledge for nearly four decades
EEBA connects you with the leaders and pioneers in the high-performance home building community

“Builders involved with EEBA gain detailed knowledge on how to build better homes to higher standards AND how to market and sell them.” — Todd Usher, Addison Homes, Greenville, SC
Who EEBA Influences

Professionals affiliated with EEBA...

- Help shape sustainable legislation, codes and energy efficiency standards
- Search for new, high-performance building technologies and products to incorporate into current homes
- Seek the best training to develop skills while earning credit towards professional certifications: AIA, NAHB, USGBC, BPI, RESNET, ICC, NARI, NATE, and many state-level organizations

“Building science will fundamentally determine whether your buildings will work or fail and EEBA is the building science.”

— Sam Rashkin, Chief Architect at the U.S. Department of Energy Building Technologies Office and founder of the ENERGY STAR for Homes program.
EEBA Brings It All Together By:

- **Building an active community**: Connect your brand with hundreds of high-performance building decision-makers
  - Builders
  - Architects
  - Engineers
  - Energy Raters
  - Consultants & Educators
  - Building trade professionals

- **Providing trusted builder designations**: Earn the EEBA High Performance Builder or EEBA Site Supervisor designations, as well as the popular Home Energy Rating System (HERS) Associate Designation, while earning CEUs

- **Advancing the unparalleled**: Educational programming featuring leading building science experts
  - Easy access to the latest sustainable technology, building products and advanced thought leadership
  - Education on local, regional and national levels to meet a variety of needs

99% plan to implement lessons learned from EEBA Educational Sessions
**EEBA Pros: A Demographic Worth Reaching**

Zero Energy Homes
Builder Designations

EEBA educational designations set home building pros apart from the pack, boost credibility with clients and demonstrate commitment to learning best practices.

The EEBA High Performance Builder Designation incorporates the industry’s best basic training on high-performance building and includes:
- Houses That Work™
- High Performance Mechanicals for Houses That Work™
- HERS (Home Energy Rating System)

The EEBA Site Supervisor Designation prepares residential construction site supervisors with the building science knowledge, processes and best practices for managing the construction of high-performance buildings.

Coursework complies with guidelines developed by the U.S. Department of Energy for building science education.

“The lessons learned from the top industry professionals have been instrumental in helping us differentiate ourselves from the competition.”

— Luis Imery, Imery Group, Athens, GA
Professionals who leverage EEBA education are highly engaged and motivated to learn, share and explore new ideas. Use the following sponsorship opportunities to make an immediate impact with sustainable building leaders.
Three Partnership Levels

Multiple partnership packages and sponsorship opportunities are available:

**PLATINUM-Level** Partnership: $20,000

**GOLD-Level** Partnership: $15,000

**SILVER-Level** Partnership: $10,000

“We benefited from EEBA regional training events, the EEBA Summit and the ability to network with like-minded builders and manufacturers, as well as with experts from the DOE and EPA. No other organization offers these benefits.”

— Gene Myers, CEO of Thrive Builders, Denver, CO

“If you’re not currently building better than code, the Summit will be a mind-altering experience, because you will be exposed to a whole new perspective on building high-performance homes.”

— Rob Howard,
Performance Construction Manager, Mitsubishi Electric Cooling & Heating
